

PERCONTA SORTOVIT Coin Sorter

SORTOVIT MS 10 C

SORTOVIT S 10 C

SORTOVIT MS 7

The PERCONTA SORTOVIT coin sorter has been developed to speed up your coin processing without in any way sacrificing the highest level of accuracy. As standard it sorts up to 2,500 coins per minute in two currencies in up to 17 denominations.

Accuracy in action

Apart from being a fast worker, the SORTOVIT is renowned for having the highest possible accuracy in counting, sorting and batching. It is also exceptionally accurate for off-sorting counterfeit, foreign and damaged coins.

PERCONTA Quickrail®

Like any other PERCONTA coin sorter, the SORTOVIT is equipped with PERCONTA Quickrail® – a fast-change sorting track. It can be changed in next to no time and minimum maintenance is required.

Extra door for using coin tubes.

Sorting mode of up to nine denominations at high speed.

Clear and user-friendly display.

Accepts both bags and tubes.

Easy operation

The machine is easily operated from a clear and logical display – designed to perfectly suit the needs of the operator. It has a large coin tray with high capacity. An automatic coin feed and a cover reducing noise and dust are other examples of classic PERCONTA ergonomics. The Sortovit MS 7 L is a slimmed down version without automatic coin feed, noise reducing cover and LED control board.

Desktop efficiency

The SORTOVIT is designed for desktop use. There is no need for space-consuming stands or special furniture. Just place it where it suits you best and from day one the SORTOVIT is a convenient working partner.

Five SORTOVIT models

The PERCONTA SORTOVIT comes in five models, SORTOVIT S 10 C, SORTOVIT MS 7, SORTOVIT MS 7 L, SORTOVIT MS 10 and SORTOVIT MS 10 C. S stands for single-stop, which means that one denomination of the sorted coins can be directly packed into bags or tubes, followed by another one. MS means that the sorters are multi-stop versions, i.e. several denominations can be packed into bags or tubes in one step. Both features eliminate unnecessary stops for packing after the coins are sorted. The amount of each batch can be defined and pre-programmed to match the needs of all users.

Flexible choices

The PERCONTA SORTOVIT is recommended for volumes higher than 20,000 coins per day. If you do not need such a high capacity or you need a really heavy-duty coin sorter, please contact us and we will help you find a solution that suits your needs.

TECHNICAL SPECIFICATIONS (PERCONTA SORTOVIT MS 10 C)

WIDTH	1,008 mm / 39.7"
DEPTH	367 mm / 14.4", 413 mm/16.3" incl. outlets
HEIGHT	306 mm / 12.0"
WEIGHT	57 kg / 125.6 lbs
VOLTAGE	230 V/50 Hz, 115 V/60 Hz
POWER CONSUMPTION	approx. 200 VA
SPEED	Up to 2,500 coins/min.
DIAMETER RANGE	16.1-31.0 mm (standard) Special diameters on request
THICKNESS RANGE	1.0-3.2 mm (standard)

Founded in 1966, SCAN COIN is one of today's leading suppliers of cash processing equipment, system solutions and services. Our worldwide customer base is served through a network of SCAN COIN companies and distribution partners covering some 120 countries. SCAN COIN develops, manufactures and markets equipment and integrated solutions for handling banknotes and coins, and has become a world leader in the automatic cash processing market. In 2004, SCAN COIN acquired the well-known German PERCONTA range of money counting and sorting systems.
